

<p style="text-align: center;">DALE HALL PRIMARY SCHOOL PROCEDURES FOR PHOTOGRAPHY IN SCHOOL POLICY</p>

This policy should be carried out in the context of and in conjunction with Dale Hall CP School's Safeguarding Policy.

1 Introduction

1.1 There are many occasions on which it is a good thing to make use of photographs that include children. This is perfectly proper and is to be encouraged. However, our school will do all it can to ensure that images are used properly, and that, as in all matters, risks are minimised, and our children kept safe and secure, whether at school or elsewhere. The aim of this policy is to establish the right balance between the proper use of technology and the safety of our children at all times.

1.2 Under the terms of the Data Protection Act 1998, all photographs and video images of children and staff alike are classified as personal data. This means that no image can be used for display or for school publicity etc, unless consent is given by or on behalf of the individual concerned.

1.3 The policy was last reviewed on **3 March 2022** by the Learning and Development Committee.

2 Parental permission

2.1 All parents and carers will be asked to sign a consent form allowing their child to be photographed or videoed while taking part in school activities, and for the image to be used within the school. This form will be given to the parents or guardians of all children when they join the school and in each successive year thereafter. This 'rolling' consent will allow the school to take pictures of pupils engaged in educational activities such as sports events, drama productions, field trips, etc., and to use these pictures internally. Where parents or carers do not give their consent, then the children concerned will not be photographed or videoed.

2.2 All pictures or videos taken will be appropriate, and will show children properly clothed for the activity they are engaged in. The school will do all it can to ensure that due sensitivity is shown in the choice and composition of these images.

3 School performances

3.1 Parents will be informed prior to school performances whether photography is permissible during the performance or afterwards. This permission will be dependent on the individual children taking part.

3.2 When permission has been given, the school will observe the way in which photographs are being taken during the performances and will withdraw the right of anyone to bring a camera of any sort if they are felt to be making inappropriate images. For example, photography is forbidden in changing rooms or backstage during school productions.

4 The Internet

4.1 Only appropriate images will be used on the school website and children will not be identified by their name or address on the school website.

5 Mobile phones

5.1 We allow children to bring mobile phones into school but they are not accessible during school hours. Children must hand in their mobile phones to the school office at the start of the school day and collect them at the end. Adults may bring in mobile phones but must not use them to take pictures of children.

6 Use of photography equipment

6.1 There are many ways in which the use of digital images is valuable for children's learning. For example, they may be used in art work or geography or science fieldwork.

6.2 Images will be made only as appropriate for school-related activities.

6.3 Children will be taught how to take pictures, but we will discourage them from taking pictures of each other, and they will be supervised by an adult when they have access to a digital camera.

6.4 As soon as images have been used for their intended purpose (e.g. illustrating a good football pass), they will be deleted. The school will not store digital images any longer than for their immediate use.

7 Media publications

7.1 Sometimes, local or national media visit the school to follow up a news story. This is often to do with a notable achievement by a child or a group of children from the school. For example, the netball team may have won a regional competition, or the school may have raised money for a charity whose representative wants to receive the donation in person. In this situation, where children's images might be made public, the school will inform parents and carers of the event in advance, and allow them to withdraw their child from the event if they so wish. Newspapers normally ask for the names of the children to go alongside the photographs; if parents or carers do not wish this to happen, then the school will not allow the individual to be photographed or filmed by the media concerned.

8 Review

This policy will be reviewed biennially and at any other time as may be necessary

DALE HALL PRIMARY SCHOOL PROCEDURES FOR PHOTOGRAPHY IN SCHOOL POLICY

Photo permissions form for pupils For use by Suffolk County Council schools

Appendix 1

DALE HALL COMMUNITY PRIMARY SCHOOL

Occasionally, we may take photographs of the children/young people at our school. We may use these images in our schools prospectus or in other printed publications that we produce, as well as on our website or on project display boards at our school. We may also make video or webcam recordings for school-to-school conferences, monitoring or other educational use.

Suffolk County Council may also use our photographs of pupils to illustrate work in Suffolk schools in council publications, publicity materials and the internet.

From time to time, our school may be visited by the media who will take photographs, film footage or carry out radio interviews. Pupils will often appear in these images, which may appear in local or national newspapers, or on televised news programmes. Photos for the media and other publicity purposes may also be taken at events where our school is taking part.

Please answer the questions below, then sign and date the form where shown. Please return the completed form to the school as soon as possible.

Conditions of use

1. This form will be completed when a child joins the school and each successive year thereafter. It remains valid for one year after they leave, to enable us to publicise the work of final year pupils. The consent will automatically expire after this time.
2. If we use photographs of individual pupils or small groups of pupils, we will avoid using the full name (which means first name **and** surname) of that child in the accompanying text or photo caption. **Please note that the media are likely to use first names and surnames in their publications/broadcasts.**
3. We will not include personal e-mail or postal addresses, or telephone or fax numbers on video, on our website, in our school prospectus or in other printed publications.
4. We may use group or class photographs or footage with very general labels, such as "a science lesson" or "making Christmas decorations".
5. We will only use images of pupils who are suitably dressed, to reduce the risk of such images being used inappropriately.

Appendix 2

A guide for parents when photography is allowed at a school event

It is natural for parents to want to record their children's time at school, especially when they take part in activities such as sports, concerts, nativity plays or other types of show. By following some simple guidelines we can proceed safely and with regard to the law.

- The head and governors have the responsibility to decide if photography at a school event is permitted
- The head and governors have the responsibility to decide the conditions that will apply so that children are kept safe and that the performance is not disrupted and children and staff not distracted.
- Parents and carers can use photographs taken at a school event for their own personal use only. Such photos must not be sold and must not be put on the web/internet. To do so would likely break Data Protection legislation.
- Parents and carers must not photograph children changing for performances or events
